

# 2025-2026 Plan Template

Ohio law requires all school districts to submit a business advisory council plan for each academic year. Each district must submit plans to the Ohio Department of Education and Workforce via OH|ID| by September 30. The Department strongly recommends using this template to capture accurately the plans for the 2025-2026 academic school year. Councils may use the data template section to capture accomplishments of the 2024-2025 academic year. Feel free to add extra space to include initiatives that demonstrate implementation of each quality practice and add extra rows if necessary to the tables to include more than two initiatives for each quality practice.

- 1. Name of business advisory council:
- 2. **Identify the structure of the business advisory council** (school district, educational service center, joint vocational school district, or independent collaborative):
- 3. JobsOhio Region in which business advisory council operates:

# **Schedule of Meetings**

# 5. Planning meetings for the 2025-2026 school year include:

Quarter 1 Meeting: August 29, 2025	Quarter 2 Meeting: November 14, 2025
Quarter 3 Meeting: February 20, 2026	Quarter 4 Meeting: May 1, 2026

Note: Some business advisory councils may choose to meet more frequently; please include any planned meetings in the schedule.

# Business Advisory Council Mission and Vision for the 2025-2026 School Year

Business advisory councils operate under <u>three quality practices</u>: **Develop Professional Skills for Future Careers**, **Build Partnerships**, and **Coordinate Experiences**.

### **DEVELOP PROFESSIONAL SKILLS FOR FUTURE CAREERS**

Describe how the business advisory council plans to **Develop Professional Skills for Future Careers** for the 2025-2026 school year.

- Describe the plan, including initiatives, projects, or events. Include specific districts, number of students and grade bands impacted by initiative(s), and list all businesses involved.
- Use the template as a guide to list all initiatives, projects, and events used to develop professional skills for future careers (include business input in curriculum alignment with skills needed for indemand professions, educator engagement and development, employers' involvement in classrooms, etc.). Be sure to include existing programs and how they will be sustained and scaled.
- When describing initiatives, please connect them to previous initiatives so that the Department can see the progression of the business advisory council from year to year.

### **Initiative 1**

Describe, in detail, the plan associated with implementing this quality practice.

The committee made up of 8 co-chairs from both business and education will facilitate the following initiative based upon the 24-25 final recommendations:

- Analyze the outcomes from 24-25, GCBAC "Work-Ready Credential" that received approval Spring 2025, and create goals for implementation to regional schools within the GCBAC
- Communicate and provide free access to Goodwill/Google AI certification to GCBAC Schools with a goal of 500 students participating regionally
- Consolidate analysis and prepare for regional outreach and communication of data to all 39 GCBAC district members.

List all participating school districts. What percentage of students within the business advisory council will be impacted by this initiative. Butler County:

Edgewood City School District Lakota Local School District Madison Local School District Ross Local School District

### **Clermont County:**

Batavia Local School District

Goshen Local School District

Bethel Tate Local School District

Clermont County ESC

Clermont Northeastern Local School Dist.

Felicity-Franklin Local School District

### Allied Construction Industries

The Health Collaborative

Industry partners are vital to the intake of summary information and delivery of a solid product to the classroom. The team will work with industry leaders to bring support and overview of the curriculum being developed. Communication and marketing will be supported by the business/industry leads in the three counties.

# How does this initiative help support or teach relevant, in-demand technical and professional skills for students and educators?

The initiative provides access to on-line classes that have been researched and approved by ODEW based upon the work of the GCBAC. The lessons are solely based upon the Ohio Means Jobs Readiness Seal criteria. The focus is to prepare students to enter the workforce with identifiable high demand skills from business and industry. Secondly, the AI course is an online certification that is supported by the GOODWILL industries of Greater Cincinnati in collaboration with Google. The certifications are both accessible online to the GCBAC student community.

# What skills gap or talent pipeline challenge does this initiative address to help your area/region? What data supports the identified skill gap or pipeline challenge?

The "Work-Ready Credential" is the outcome of two years of professional skills analysis and needs from industry partnerships in Southwest Ohio. The credential provides on-line lessons, assessment and WBL hours for any industry within the state of Ohio's credential portal and is based upon the Ohio Means Jobs Readiness Seal content. All research is associated with the high- demands of job skills identified by the 13 industry clusters of ODEW. The Al certification is based upon five learning modules that represent the entry level learning/purposefully aspects of Al.

# How does this initiative impact students with disabilities?

This initiative supports students with disabilities in the same manner as their typical peers. The state systematic improvement plan is designed to hold all districts to confirm not only to state graduation standards but also post-graduation success. The initiative will support the skills based needs to proceed successful transitions for all students into the workforce of the region.

### **Initiative 2**

Describe in detail the plan associated with implementing this quality practice.

- The GCBAC Math Subcommittee will create a standalone math course for high school students in grades 10-12 to increase students' practical understanding of advanced mathematical and algebraic skills and concepts applicable to modern industry.
- This course will be created through a collaboration from education and industry partners to include practical applications
- Goal to have course approved by the Ohio Department of Education and Workforce as an Algebra 2 equivalent, 2026-2027.

List all participating school districts. What percentage of students within the business advisory council will be impacted by this initiative?

Allied Construction

Industry partners are vital to the intake of summary information and delivery of a solid product to the classroom. The team will work with industry leaders to bring support and overall participation. Additionally, our subcommittee is made up of both educators and industry partners working together.

# How does this initiative help develop relevant, in-demand skills for students and educators?

The committee is focused on working with industry partners who are providing feedback centered on the need for relevant in-demand skills. The goal to provide curriculum that can be taught and applicable to the student, educator and the industry partners has been established through survey and interest demands from regional partnerships. Developing mathematics that is in line with high demand jobs will provide employers with a more prepared workforce post-graduation.

# What skills gap or talent pipeline challenge does this initiative address to help your area/region? What data supports the identified skill gap or pipeline challenge?

 High demand jobs for Southwest Ohio are in need for skilled workers for manufacturing, STEM, construction positions that require a work-ready mathematics post-graduation. Skills have been identified such as (fractions, measurements, hands-on mathematics) to directly connect the students to the skill gaps that are currently occurring. The course will address the mathematics needed for the regional pipeline challenge.

### How does this initiative impact students with disabilities?

This initiative supports students with disabilities in the same manner as their typical peers. The state systematic improvement plan is designed to hold all districts to confirm not only to state graduation standards but also post-graduation success. The initiative will support the skills-based needs to proceed successful transitions for all students into the workforce of the region.

Note: Please add space/rows as needed.

### **BUILD PARTNERSHIPS**

Describe how the business advisory council plans to **Build Partnerships** for the 2025-2026 school year.

- Describe how the business advisory council will grow partnerships in alignment with in-demand careers in the region with representation from industry, workforce boards, port authority, Ohio Means Jobs Centers, industry sector partnerships, higher education, etc.
- Use the template as a guide to list all initiatives, projects, and events used to build partnerships.
   Include information on partnership alignment, effectiveness, and initiatives spearheaded by these collaborations. Demonstrate cooperative efforts between districts and partners to benefit students and businesses.
- When describing initiatives, please connect them to previous initiatives so that the Department can see the progression of the business advisory council from year to year.

### **Initiative 1**

Describe in detail the plan associated with implementing this quality practice. What collaborative action steps are required to facilitate achieving outcomes?

Based upon the outcomes of the need assessments of the 24-25 Building Partnership work, a clear focus has been established to streamline efficiencies of the growing Greater Cincinnati Business Advisory Council. The council has identified the 16 national career clusters and deemed the need to extend expansion to specific clusters essential to the overall practice of the council and outsourcing LinkedUp connect to our regional school districts.

- In the 2025-2026 school year, the Greater Cincinnati Business Advisory Council (GCBAC) will strengthen partnerships focused on in-demand careers by involving representatives from industry, workforce boards, higher education, and other key sectors. The measurable goal is to grow partnerships in Business, Finance, Marketing, Management by 20%.
  - The initiative will be led by the subcommittee of 6 members to review the goals, progress, and set a plan for work to be done in between the quarterly meetings.
  - Goals/actions steps meet in 24-25, will be followed to effectively grow the Business, Finance, Marketing, and Management career clusters. LinkedUp Connect will be used as the progress measurement for the GCBAC.

How will the council draw feedback from business and industry to inform decision-making?

The GCBAC will work within the council to conduct surveys and collaborate within our 6 regional industry partnerships (construction, IT, healthcare, manufacturing, supply chain, STEM) to collaborate on input and information. GCBAC also hosts 10 of 20 executive team members who are industry side-based leaders for the 25-26 term. Survey tools and outreach opportunities will be provided throughout the year.

What is the business advisory council's plan to utilize feedback and guidance from business and industry partners to increase skills for students and educators?

The GCBAC will continue to utilize feedback from all industry partners to support the goals and objectives of the GCBAC "Developing Professional Skills" subcommittee. All feedback that is collected and surveyed for partnership growth will become shared data throughout the GCBAC executive team (20) members. The executive team meets an additional 6-8 sessions in addition to the 4 quarterly meetings to share information associated with the council's objectives and goals.

# How will identified industry partners co-develop relevant in-demand skills for students and educators?

The GCBAC membership consists of private industry, non-profit, OMJ, Workforce Councils of Hamilton/Clermont Counties, higher education, chamber of commerce members, state support teams, and local small business members. These groups serve on all three subcommittees of this application. Their leadership, input and direction for the GCBAC is coordinated by the subcommittee chairs and regional efforts supported by GCBAC and our LinkedUp Connect portal. The GCBAC supports all industry partners to be involved with the LinkedUp Connect system that directly connects students/educators with real world learning opportunities. The system allows a direct connection to education of in-demand skills within the realm of industry partnerships. Hamilton County ESC supports the LinkedUp Connect portal for all three counites and the 39 school districts that are active members. All industry partners are supported and provided with access to not only co-developing skills but associate directly to the education side of the GCBAC. At the end of the 24-25 year, there were 243 partnerships associated with LinkedUp Connect that provided over 27,000 learning opportunities.

How will partners impact career readiness for students with disabilities?

This initiative supports students with disabilities in the same manner as their typical peers. The state systematic improvement plan is designed to hold all districts to confirm not only to state graduation standards but also post-graduation success. The initiative will support the skills based needs to proceed successful transitions for all students into the workforce of the region. Additionally, all industry Partnerships to the GCBAC are given opportunities to work with transition to work trainers as well as our state support team for the region.

### **Initiative 2**

Describe in detail how the business advisory council plans to strengthen and expand business and industry representation.

The Greater Cincinnati Business Advisory Council (GCBAC) subcommittee will prioritize identifying and resolving transportation barriers that prevent students from accessing career exploration opportunities with the intention to expand business and industry representation.

- Continue to build upon the current GCBAC transportation website to provide 10 new industry support connections that will expand regional growth and activity.
- Committee members will work monthly and report to the GCBAC quarterly
- Transportation support will focus on high in-demand industry partnerships for the GCBAC

What is the business advisory council plan to utilize insights from business and industry to increase skills for students and educators?

The GCBAC will continue to utilize feedback from all industry partners to support the goals and objectives of the GCBAC "Developing Professional Skills" subcommittee. All feedback that is collected and surveyed for partnership growth will become shared data throughout the GCBAC executive team (20) members. The executive team meets an additional 6-8 sessions in addition to the 4 quarterly meetings to share information associated with the council's objectives and goals.

# How will identified expanded industries develop relevant in-demand skills for students and educators?

The GCBAC membership consists of private industry, non-profit, OMJ, Workforce Councils of Hamilton/Clermont Counties, higher education, chamber of commerce members, state support teams, and local small business members. These groups serve on all three subcommittees of this application. Their leadership, input and direction for the GCBAC is coordinated by the subcommittee chairs and regional efforts supported by GCBAC and our LinkedUp Connect portal. The GCBAC supports all industry partners to be involved with the LinkedUp Connect system that directly connects students/educators with real world learning opportunities. The system allows a direct connection to education of in-demand skills within the realm of industry partnerships. Hamilton County ESC supports the LinkedUp Connect portal for all three counites and the 39 school districts that are active members. All industry partners are supported and provided with access to not only co-developing skills but directly associated with the education side of the GCBAC. At the end of the 24-25 year, there were 243 partnerships associated with LinkedUp Connect that provided over 27,000 learning opportunities.

How will partners impact career readiness for students with disabilities?

This initiative supports students with disabilities in the same manner as their typical peers. The state systematic improvement plan is designed to hold all districts to confirm not only to state graduation standards but also post-graduation success. The initiative will support the skills-based needs to proceed successful transitions for all students into the workforce of the region. Additionally, all industry Partnerships to the GCBAC are given opportunities to work with transition to work trainers as well as our state support team for the region.

Note: Please add space/rows as needed.

#### **COORDINATE EXPERIENCES**

Describe how the business advisory council plans to **Coordinate Experiences** for the 2025-2026 school year.

- Describe how the business advisory council will connect students to experiential learning to show competency of skills learned through hands-on demonstration and experiences (for example, internships, problem-based learning, state-approved <u>pre-apprenticeships</u>, and registered state <u>apprenticeships</u>).
- When describing initiatives, please connect them to previous initiatives so that the Department can see the progression of the business advisory council from year to year.

### **Initiative 1**

Describe in detail how the business advisory council plans to increase <u>Work-Based Learning</u> for students.

The GCBAC will increase knowledge and understanding of the CCWMR indicator

- Support districts to create strategies to improve their district indicator score
- Identify the three tier experience levels related to WBL
- Increase the number of experiences that are EMIS coded for report card

The co-chair team will lead professional development sessions, work with HCESC to deliver a career assessment tool regionally and continue with regional EMIS training from the 24-25 year.

List all school districts and number of students that will benefit from this initiative.

UC Health

**Talbert House** 

Cooper Electric

Supply Chain OKI

Prysmian Group

The Health Collaborative

GCBAC works with a list of 243 business/industry partners in the three counties in which it serves. This is an overview list that connects across in-demand careers.

What role does business play in planning and implementation?

The chairs for this subcommittee consist of educators and business partners. The work is collaborative. Business and industry will be involved in PD, training, and support examples of high-level work-based learning.

### **Initiative 2**

Describe in detail how the business advisory council plans to increase <u>Work-Based</u> <u>Learning</u> for students.

GCBAC will host a learning Symposium highlighting Work-Based Learning best practices from the region.

- Student success stories and examples
- Educator connections and outcomes
- Business/Industry high level WBL examples

The goal is to highlight and increase awareness for future WBL and to provide an increase of registered LinkedUp participation by 5% for the 25-26 term.

The subcommittee will recruit, design, market and host the symposium in June of 2026. The event will be supported by Hamilton and Clermont County ESC's during the planning and implementation process.

List all school districts that will benefit from this initiative.

### **Butler County:**

Edgewood City School District Lakota Local School District Madison Local School District Ross Local School District

### **Clermont County:**

INTERalliance The Health Collaborative

Junior Achievement OKI Advanced Manufacturing Industries

Cincinnati Chamber of Commerce University of Cincinnati

Christ Hospital Network Allied Construction Industries

Urban Farming Talbert House

Cincinnati State Goodwill of Cincinnati

Cincinnati Youth Collaborative Cincinnati Reds

### What role does business play in implementation?

Business and industry partners play a **critical and active role** in the implementation of GCBAC's Work-Based Learning initiatives, particularly in the planning and execution of the 2026 WBL Symposium.

### **Key roles include:**

### Showcasing WBL Models:

 Share high-level, real-world examples of successful WBL experiences, serving as models for other businesses and schools.

## • Promoting Student Engagement:

 Provide testimonials, case studies, or panel participation that highlight how student involvement has supported both learning and workforce development.

# Co-Designing Learning Experiences:

 Collaborate with educators to align WBL opportunities with in-demand industry skills and workplace expectations.

## Driving Participation:

 Encourage peers and other businesses to register with LinkedUp Connect and offer WBL experiences, contributing to the goal of a 5% participation increase.

### Supporting Event Planning:

 Some industry partners may assist in planning, marketing, or sponsoring the event to broaden its impact and visibility.

Through these efforts, business and industry partners help **bridge the gap between education and employment**, ensuring students are better prepared for the future workforce.
